

Senate Bill No. 1412

Passed the Senate August 22, 2014

Secretary of the Senate

Passed the Assembly August 21, 2014

Chief Clerk of the Assembly

This bill was received by the Governor this _____ day
of _____, 2014, at _____ o'clock ____M.

Private Secretary of the Governor

CHAPTER _____

An act to amend Sections 1367, 1368, 1368.1, 1369, 1369.1, 1370, 1370.01, 1370.1, 1370.5, 1371, 1373, and 1375.5 of, to add Section 1370.02 to, and to repeal Section 1367.1 of, the Penal Code, relating to crimes.

LEGISLATIVE COUNSEL'S DIGEST

SB 1412, Nielsen. Criminal proceedings: mentally incompetent offenders.

(1) Existing law prohibits a person from being tried or adjudged to punishment while that person is mentally incompetent. Existing law establishes a process by which a defendant's mental competency is evaluated and by which the defendant receives treatment, including, if applicable, antipsychotic medication, with the goal of returning the defendant to competency. Existing law credits time spent by a defendant in a state hospital or other facility as a result of commitment during the process toward the term of any imprisonment for which the defendant is sentenced.

This bill would, similarly, prohibit a person from having his or her probation, mandatory supervision, postrelease community supervision, or parole revoked while that person is mentally incompetent. The bill would establish a process by which the person's mental competency is evaluated and by which the defendant receives treatment, including, if applicable, antipsychotic medication, with the goal of returning the person to competency. If a defendant is found mentally incompetent during postrelease community supervision or parole revocation hearings, the bill would require the court to dismiss the pending revocation matter and return the defendant to supervision, in which case the bill would allow the court, using the least restrictive option that will meet the mental health needs of the defendant, to modify the terms and conditions of supervision to include appropriate mental health treatment, refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant, or, if there are no other reasonable alternatives to the establishment of a conservatorship to meet the mental health needs of the defendant, refer the matter

to the public guardian of the county of commitment to initiate conservatorship proceedings, as specified. By increasing the duties of local officials, including the county mental health director and county public guardian, the bill would impose a state-mandated local program.

If a person subject to parole due to a conviction for an offense of first or 2nd degree murder or a registerable sex offense in which one or more of the victims of the offense was a child under 14 years of age is found mentally incompetent, the bill would require the court to order the person to undergo treatment to restore mental competency. If his or her mental competency is not restored, the bill would establish procedures for his or her supervision or referral, as specified.

The bill would also make conforming changes.

If a conservatorship is established for a defendant or parolee pursuant to the above-described provisions, the bill would prohibit the county or the Department of Corrections and Rehabilitation from compassionately releasing the defendant or parolee or otherwise causing the termination of his or her supervision or parole based on the establishment of that conservatorship.

(2) During the pendency of an action in a case in which the defendant has been charged with a misdemeanor, if the defendant's behavior leads the judge to conclude that the defendant is mentally disordered and incompetent to stand trial, existing law requires the judge to state the conclusion in the record and inquire of the attorney for the defendant whether, in the opinion of the attorney, the defendant is mentally disordered. Existing law requires the court to order the defendant to be referred for evaluation and treatment, as specified, if counsel for the defendant informs the court that he or she believes the defendant is or may be mentally disordered.

This bill would repeal those provisions.

(3) This bill would incorporate additional changes to Section 1370 of the Penal Code, proposed by AB 2186 and AB 2625, that would become operative only if this bill and either or both of those bills are chaptered and become effective January 1, 2015, and this bill is chaptered last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by

the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 1367 of the Penal Code is amended to read:

1367. (a) A person cannot be tried or adjudged to punishment or have his or her probation, mandatory supervision, postrelease community supervision, or parole revoked while that person is mentally incompetent. A defendant is mentally incompetent for purposes of this chapter if, as a result of mental disorder or developmental disability, the defendant is unable to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a rational manner.

(b) Section 1370 shall apply to a person who is charged with a felony or alleged to have violated the terms of probation for a felony or mandatory supervision and is incompetent as a result of a mental disorder. Section 1370.01 shall apply to a person who is charged with a misdemeanor or misdemeanors only, or a violation of formal or informal probation for a misdemeanor, and the judge finds reason to believe that the defendant is mentally disordered, and may, as a result of the mental disorder, be incompetent to stand trial. Section 1370.1 shall apply to a person who is incompetent as a result of a developmental disability and shall apply to a person who is incompetent as a result of a mental disorder, but is also developmentally disabled. Section 1370.02 shall apply to a person alleged to have violated the terms of his or her postrelease community supervision or parole.

SEC. 2. Section 1367.1 of the Penal Code is repealed.

SEC. 3. Section 1368 of the Penal Code is amended to read:

1368. (a) If, during the pendency of an action and prior to judgment, or during revocation proceedings for a violation of probation, mandatory supervision, postrelease community supervision, or parole, a doubt arises in the mind of the judge as to the mental competence of the defendant, he or she shall state

that doubt in the record and inquire of the attorney for the defendant whether, in the opinion of the attorney, the defendant is mentally competent. If the defendant is not represented by counsel, the court shall appoint counsel. At the request of the defendant or his or her counsel or upon its own motion, the court shall recess the proceedings for as long as may be reasonably necessary to permit counsel to confer with the defendant and to form an opinion as to the mental competence of the defendant at that point in time.

(b) If counsel informs the court that he or she believes the defendant is or may be mentally incompetent, the court shall order that the question of the defendant's mental competence is to be determined in a hearing which is held pursuant to Sections 1368.1 and 1369. If counsel informs the court that he or she believes the defendant is mentally competent, the court may nevertheless order a hearing. Any hearing shall be held in the superior court.

(c) Except as provided in Section 1368.1, when an order for a hearing into the present mental competence of the defendant has been issued, all proceedings in the criminal prosecution shall be suspended until the question of the present mental competence of the defendant has been determined.

If a jury has been impaneled and sworn to try the defendant, the jury shall be discharged only if it appears to the court that undue hardship to the jurors would result if the jury is retained on call.

If the defendant is declared mentally incompetent, the jury shall be discharged.

SEC. 4. Section 1368.1 of the Penal Code is amended to read:

1368.1. (a) If the action is on a complaint charging a felony, proceedings to determine mental competence shall be held prior to the filing of an information unless the counsel for the defendant requests a preliminary examination under the provisions of Section 859b. At such preliminary examination, counsel for the defendant may (1) demur, (2) move to dismiss the complaint on the ground that there is not reasonable cause to believe that a felony has been committed and that the defendant is guilty thereof, or (3) make a motion under Section 1538.5.

(b) If the action is on a complaint charging a misdemeanor, counsel for the defendant may (1) demur, (2) move to dismiss the complaint on the ground that there is not reasonable cause to believe that a public offense has been committed and that the

defendant is guilty thereof, or (3) make a motion under Section 1538.5.

(c) If the proceeding involves an alleged violation of probation, mandatory supervision, postrelease community supervision, or parole, counsel for the defendant may move to reinstate supervision on the ground that there is not probable cause to believe that the defendant violated the terms of his or her supervision.

(d) In ruling upon any demurrer or motion described in subdivision (a), (b), or (c), the court may hear any matter which is capable of fair determination without the personal participation of the defendant.

(e) A demurrer or motion described in subdivision (a), (b), or (c) shall be made in the court having jurisdiction over the complaint. The defendant shall not be certified until the demurrer or motion has been decided.

SEC. 5. Section 1369 of the Penal Code is amended to read:

1369. Except as stated in subdivision (g), a trial by court or jury of the question of mental competence shall proceed in the following order:

(a) The court shall appoint a psychiatrist or licensed psychologist, and any other expert the court may deem appropriate, to examine the defendant. In any case where the defendant or the defendant's counsel informs the court that the defendant is not seeking a finding of mental incompetence, the court shall appoint two psychiatrists, licensed psychologists, or a combination thereof. One of the psychiatrists or licensed psychologists may be named by the defense and one may be named by the prosecution. The examining psychiatrists or licensed psychologists shall evaluate the nature of the defendant's mental disorder, if any, the defendant's ability or inability to understand the nature of the criminal proceedings or assist counsel in the conduct of a defense in a rational manner as a result of a mental disorder and, if within the scope of their licenses and appropriate to their opinions, whether or not treatment with antipsychotic medication is medically appropriate for the defendant and whether antipsychotic medication is likely to restore the defendant to mental competence. If an examining psychologist is of the opinion that antipsychotic medication may be medically appropriate for the defendant and that the defendant should be evaluated by a psychiatrist to determine if antipsychotic medication is medically appropriate,

the psychologist shall inform the court of this opinion and his or her recommendation as to whether a psychiatrist should examine the defendant. The examining psychiatrists or licensed psychologists shall also address the issues of whether the defendant has capacity to make decisions regarding antipsychotic medication and whether the defendant is a danger to self or others. If the defendant is examined by a psychiatrist and the psychiatrist forms an opinion as to whether or not treatment with antipsychotic medication is medically appropriate, the psychiatrist shall inform the court of his or her opinions as to the likely or potential side effects of the medication, the expected efficacy of the medication, possible alternative treatments, and whether it is medically appropriate to administer antipsychotic medication in the county jail. If it is suspected the defendant is developmentally disabled, the court shall appoint the director of the regional center for the developmentally disabled established under Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code, or the designee of the director, to examine the defendant. The court may order the developmentally disabled defendant to be confined for examination in a residential facility or state hospital.

The regional center director shall recommend to the court a suitable residential facility or state hospital. Prior to issuing an order pursuant to this section, the court shall consider the recommendation of the regional center director. While the person is confined pursuant to order of the court under this section, he or she shall be provided with necessary care and treatment.

(b) (1) The counsel for the defendant shall offer evidence in support of the allegation of mental incompetence.

(2) If the defense declines to offer any evidence in support of the allegation of mental incompetence, the prosecution may do so.

(c) The prosecution shall present its case regarding the issue of the defendant's present mental competence.

(d) Each party may offer rebutting testimony, unless the court, for good reason in furtherance of justice, also permits other evidence in support of the original contention.

(e) When the evidence is concluded, unless the case is submitted without final argument, the prosecution shall make its final argument and the defense shall conclude with its final argument to the court or jury.

(f) In a jury trial, the court shall charge the jury, instructing them on all matters of law necessary for the rendering of a verdict. It shall be presumed that the defendant is mentally competent unless it is proved by a preponderance of the evidence that the defendant is mentally incompetent. The verdict of the jury shall be unanimous.

(g) Only a court trial is required to determine competency in any proceeding for a violation of probation, mandatory supervision, postrelease community supervision, or parole.

SEC. 6. Section 1369.1 of the Penal Code is amended to read:

1369.1. (a) As used in this chapter, “treatment facility” includes a county jail. Upon the concurrence of the county board of supervisors, the county mental health director, and the county sheriff, the jail may be designated to provide medically approved medication to defendants found to be mentally incompetent and unable to provide informed consent due to a mental disorder, pursuant to this chapter. In the case of Madera, Napa, and Santa Clara Counties, the concurrence shall be with the board of supervisors, the county mental health director, and the county sheriff or the chief of corrections. The provisions of Sections 1370, 1370.01, and 1370.02 shall apply to antipsychotic medications provided in a county jail, provided, however, that the maximum period of time a defendant may be treated in a treatment facility pursuant to this section shall not exceed six months.

(b) This section does not abrogate or limit any law enacted to ensure the due process rights set forth in *Sell v. United States* (2003) 539 U.S. 166.

(c) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

SEC. 7. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged or hearing on the alleged violation shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial, the hearing on the alleged violation, or the judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital

for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, or to any other available public or private treatment facility, including a local county jail treatment facility or the community-based residential treatment system established pursuant to Article 1 (commencing with Section 5670) of Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code if the facility has a secured perimeter or a locked and controlled treatment facility, approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital, as directed by the State Department of State Hospitals, or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment

for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, “violent felony” means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court shall serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed, and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be committed to the State Department of State Hospitals or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or be committed to the State Department of State Hospitals or to any other treatment facility. A person shall not be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee. The community program director or designee shall evaluate the appropriate

placement for the defendant between the State Department of State Hospitals, a local county jail treatment facility, or the community-based residential treatment system based upon guidelines provided by the State Department of State Hospitals. If a local county jail treatment facility is selected, the State Department of State Hospitals shall provide treatment at the county jail treatment facility and reimburse the county jail treatment facility for the reasonable costs of the bed during the treatment. If the community-based residential treatment system is selected, the State Department of State Hospitals shall provide reimbursement to the community-based residential treatment system for the cost of treatment as negotiated with the State Department of State Hospitals. The six-month limitation in Section 1369.1 shall not apply to individuals deemed incompetent to stand trial who are being treated to restore competency within a county jail treatment facility pursuant to this section.

(B) The court shall hear and determine whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication, and shall proceed as follows:

(i) The court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another

that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(ii) If the court finds any of the conditions described in clause (i) to be true, the court shall issue an order authorizing the treatment facility to involuntarily administer antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist. The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (i) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (i) and does not meet the criteria under subclause (II) of clause (i).

(iii) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(iv) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication, and if the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's

consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(v) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication and if the defendant, with advice from his or her counsel, does not consent, the court order for commitment shall indicate that, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(vi) Any report made pursuant to paragraph (1) of subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (iv) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (v) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to

make decisions regarding antipsychotic medication based on the conditions described in subclause (I) or (II) of clause (i) of subparagraph (B), the treating psychiatrist shall certify whether the lack of capacity and any applicable conditions described above exist. That certification shall contain an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate.

(D) (i) If the treating psychiatrist certifies that antipsychotic medication has become medically necessary and appropriate pursuant to subparagraph (C), antipsychotic medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of the certification, the defendant is provided a medication review hearing before an administrative law judge to be conducted at the facility where the defendant is receiving treatment. The treating psychiatrist shall present the case for the certification for involuntary treatment and the defendant shall be represented by an attorney or a patients' rights advocate. The attorney or patients' rights advocate shall be appointed to meet with the defendant no later than one day prior to the medication review hearing to review the defendant's rights at the medication review hearing, discuss the process, answer questions or concerns regarding involuntary medication or the hearing, assist the defendant in preparing for the hearing and advocating for his or her interests at the hearing, review the panel's final determination following the hearing, advise the defendant of his or her right to judicial review of the panel's decision, and provide the defendant with referral information for legal advice on the subject. The defendant shall also have the following rights with respect to the medication review hearing:

- (I) To be given timely access to the defendant's records.
- (II) To be present at the hearing, unless the defendant waives that right.
- (III) To present evidence at the hearing.
- (IV) To question persons presenting evidence supporting involuntary medication.
- (V) To make reasonable requests for attendance of witnesses on the defendant's behalf.
- (VI) To a hearing conducted in an impartial and informal manner.

(ii) If the administrative law judge determines that the defendant either meets the criteria specified in subclause (I) of clause (i) of subparagraph (B), or meets the criteria specified in subclause (II) of clause (i) of subparagraph (B), then antipsychotic medication may continue to be administered to the defendant for the 21-day certification period. Concurrently with the treating psychiatrist's certification, the treating psychiatrist shall file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period. For purposes of this subparagraph, the treating psychiatrist shall not be required to pay or deposit any fee for the filing of the petition or other document or paper related to the petition.

(iii) If the administrative law judge disagrees with the certification, medication may not be administered involuntarily until the court determines that antipsychotic medication should be administered pursuant to this section.

(iv) The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant, and shall hold a hearing, no later than 18 days from the date of the certification, to determine whether antipsychotic medication should be ordered beyond the certification period.

(v) If, as a result of the hearing, the court determines that antipsychotic medication should be administered beyond the certification period, the court shall issue an order authorizing the administration of that medication.

(vi) The court shall render its decision on the petition and issue its order no later than three calendar days after the hearing and, in any event, no later than the expiration of the 21-day certification period.

(3) When the court orders that the defendant be committed to the State Department of State Hospitals or other public or private treatment facility, the court shall provide copies of the following documents prior to the admission of the defendant to the State Department of State Hospitals or other treatment facility where the defendant is to be committed:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(I) Any medical records.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall commit the patient to the State Department of State Hospitals.

(6) (A) If the defendant is committed or transferred to the State Department of State Hospitals pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to the State Department of State Hospitals or to another public or private treatment facility approved by the

community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). If either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to the State Department of State Hospitals or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(7) An order by the court authorizing involuntary medication of the defendant shall be valid for no more than one year. The court shall review the order six months after the order was made to determine if the grounds for the authorization remain. In the review, the court shall consider the reports of the treating psychiatrist or psychiatrists and the defendant's patients' rights advocate or attorney. The court may require testimony from the treating psychiatrist or psychiatrists and the patients' rights advocate or attorney, if necessary. The court may continue the order authorizing involuntary medication for up to another six months, or vacate the order, or make any other appropriate order.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a

written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence. If the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, if the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence. If the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the community program director or a designee.

(2) If the court has issued an order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant, the reports made at six-month intervals concerning the defendant's progress toward regaining competency shall also consider the issue of involuntary medication. Each report shall include, but is not limited to, all the following:

(A) Whether or not the defendant has the capacity to make decisions concerning antipsychotic medication.

(B) If the defendant lacks capacity to make decisions concerning antipsychotic medication, whether the defendant risks serious harm

to his or her physical or mental health if not treated with antipsychotic medication.

(C) Whether or not the defendant presents a danger to others if he or she is not treated with antipsychotic medication.

(D) Whether the defendant has a mental illness for which medications are the only effective treatment.

(E) Whether there are any side effects from the medication currently being experienced by the defendant that would interfere with the defendant's ability to collaborate with counsel.

(F) Whether there are any effective alternatives to medication.

(G) How quickly the medication is likely to bring the defendant to competency.

(H) Whether the treatment plan includes methods other than medication to restore the defendant to competency.

(I) A statement, if applicable, that no medication is likely to restore the defendant to competency.

(3) After reviewing the reports, the court shall determine whether or not grounds for the order authorizing involuntary administration of antipsychotic medication still exist and shall do one of the following:

(A) If the original grounds for involuntary medication still exist, the order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant shall remain in effect.

(B) If the original grounds for involuntary medication no longer exist, and there is no other basis for involuntary administration of antipsychotic medication, the order for the involuntary administration of antipsychotic medication shall be vacated.

(C) If the original grounds for involuntary medication no longer exist, and the report states that there is another basis for involuntary administration of antipsychotic medication, the court shall set a hearing within 21 days to determine whether the order for the involuntary administration of antipsychotic medication shall be vacated or whether a new order for the involuntary administration of antipsychotic medication shall be issued. The hearing shall proceed as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(4) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in

Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(5) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(6) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination. If the court determines that the defendant shall continue to be treated in the state hospital or on an outpatient basis, the court shall determine issues concerning administration of antipsychotic medication, as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, or the maximum term of imprisonment provided by law for a violation of probation or mandatory supervision, whichever is shorter, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (4) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are

pending, and the defendant's counsel of record. The court shall notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which the criminal charges or revocation proceedings are pending.

(4) If the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) With the exception of proceedings alleging a violation of mandatory supervision, the criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee. In a proceeding alleging a violation of mandatory supervision, if the person is not placed under a conservatorship as described in paragraph (2) of subdivision (c), or if a conservatorship is terminated, the court shall reinstate mandatory supervision and may modify the terms and conditions of supervision to include appropriate mental health treatment or refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant.

(e) If the criminal action against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code).

(f) As used in this chapter, "community program director" means the person, agency, or entity designated by the State Department of State Hospitals pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, “secure treatment facility” shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) Nothing in this section shall preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing a treatment facility or outpatient program to involuntarily administer antipsychotic medication to a person being treated as incompetent to stand trial.

SEC. 7.1. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged or hearing on the alleged violation shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial, the hearing on the alleged violation, or the judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, or to any other available public or private treatment facility, including a local county jail treatment facility or the community-based residential treatment system established pursuant to Article 1 (commencing with Section 5670) of Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code if the facility has a secured perimeter or a locked and controlled treatment facility, approved by the community program director that will promote the defendant’s speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a

charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital, as directed by the State Department of State Hospitals, or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court shall serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed, and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be committed to the State Department of State Hospitals or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or be committed to the State Department of State Hospitals or to any other treatment facility. A person shall not be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee. The community program director or designee shall evaluate the appropriate placement for the defendant between the State Department of State Hospitals, a local county jail treatment facility, or the community-based residential treatment system based upon guidelines provided by the State Department of State Hospitals. If a local county jail treatment facility is selected, the State Department of State Hospitals shall provide treatment at the county jail treatment facility and reimburse the county jail treatment facility for the reasonable costs of the bed during the treatment. If the community-based residential treatment system is selected, the State Department of State Hospitals shall provide reimbursement to the community-based residential treatment system for the cost of treatment as negotiated with the State Department of State Hospitals. The six-month limitation in Section 1369.1 shall not apply to individuals deemed incompetent to stand trial who are being treated to restore competency within a county jail treatment facility pursuant to this section.

(B) The court shall hear and determine whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication. The court shall consider opinions in the reports prepared pursuant to subdivision (a) of Section 1369, as applicable to the issue of whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication, and shall proceed as follows:

(i) The court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the

defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(ii) If the court finds any of the conditions described in clause (i) to be true, the court shall issue an order authorizing involuntary administration of antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist at any facility housing the defendant for purposes of this chapter. The order shall be valid for no more than one year, pursuant to subparagraph (A) of paragraph (7). The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (i) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (i) and does not meet the criteria under subclause (II) of clause (i).

(iii) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(iv) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication, and if the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(v) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication and if the defendant, with advice from his or her counsel, does not

consent, the court order for commitment shall indicate that, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(vi) Any report made pursuant to paragraph (1) of subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (iv) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (v) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication based on the conditions described in subclause (I) or (II) of clause (i) of subparagraph (B), the treating psychiatrist shall certify whether the lack of capacity and any applicable conditions described above exist. That certification shall contain an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate.

(D) (i) If the treating psychiatrist certifies that antipsychotic medication has become medically necessary and appropriate

pursuant to subparagraph (C), antipsychotic medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of the certification, the defendant is provided a medication review hearing before an administrative law judge to be conducted at the facility where the defendant is receiving treatment. The treating psychiatrist shall present the case for the certification for involuntary treatment and the defendant shall be represented by an attorney or a patients' rights advocate. The attorney or patients' rights advocate shall be appointed to meet with the defendant no later than one day prior to the medication review hearing to review the defendant's rights at the medication review hearing, discuss the process, answer questions or concerns regarding involuntary medication or the hearing, assist the defendant in preparing for the hearing and advocating for his or her interests at the hearing, review the panel's final determination following the hearing, advise the defendant of his or her right to judicial review of the panel's decision, and provide the defendant with referral information for legal advice on the subject. The defendant shall also have the following rights with respect to the medication review hearing:

- (I) To be given timely access to the defendant's records.
 - (II) To be present at the hearing, unless the defendant waives that right.
 - (III) To present evidence at the hearing.
 - (IV) To question persons presenting evidence supporting involuntary medication.
 - (V) To make reasonable requests for attendance of witnesses on the defendant's behalf.
 - (VI) To a hearing conducted in an impartial and informal manner.
- (ii) If the administrative law judge determines that the defendant either meets the criteria specified in subclause (I) of clause (i) of subparagraph (B), or meets the criteria specified in subclause (II) of clause (i) of subparagraph (B), then antipsychotic medication may continue to be administered to the defendant for the 21-day certification period. Concurrently with the treating psychiatrist's certification, the treating psychiatrist shall file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period. For purposes of this subparagraph, the treating

psychiatrist shall not be required to pay or deposit any fee for the filing of the petition or other document or paper related to the petition.

(iii) If the administrative law judge disagrees with the certification, medication may not be administered involuntarily until the court determines that antipsychotic medication should be administered pursuant to this section.

(iv) The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant, and shall hold a hearing, no later than 18 days from the date of the certification, to determine whether antipsychotic medication should be ordered beyond the certification period.

(v) If, as a result of the hearing, the court determines that antipsychotic medication should be administered beyond the certification period, the court shall issue an order authorizing the administration of that medication.

(vi) The court shall render its decision on the petition and issue its order no later than three calendar days after the hearing and, in any event, no later than the expiration of the 21-day certification period.

(vii) If the administrative law judge upholds the certification pursuant to clause (ii), the court may, for a period not to exceed 14 days, extend the certification and continue the hearing pursuant to stipulation between the parties or upon a finding of good cause. In determining good cause, the court may review the petition filed with the court, the administrative law judge's order, and any additional testimony needed by the court to determine if it is appropriate to continue medication beyond the 21-day certification and for a period of up to 14 days.

(viii) The district attorney, county counsel, or representative of any facility where a defendant found incompetent to stand trial is committed may petition the court for an order to administer involuntary medication pursuant to the criteria set forth in subclauses (II) and (III) of clause (i) of subparagraph (B). The order is reviewable as provided in paragraph (7).

(3) When the court orders that the defendant be committed to the State Department of State Hospitals or other public or private treatment facility, the court shall provide copies of the following documents prior to the admission of the defendant to the State

Department of State Hospitals or other treatment facility where the defendant is to be committed:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(I) Any medical records.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall commit the patient to the State Department of State Hospitals.

(6) (A) If the defendant is committed or transferred to the State Department of State Hospitals pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the

defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to the State Department of State Hospitals or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). If either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to the State Department of State Hospitals or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(7) (A) An order by the court authorizing involuntary medication of the defendant shall be valid for no more than one year. The court shall review the order six months after the order was made to determine if the grounds for the authorization remain. In the review, the court shall consider the reports of the treating psychiatrist or psychiatrists and the defendant's patients' rights advocate or attorney. The court may require testimony from the treating psychiatrist or psychiatrists and the patients' rights

advocate or attorney, if necessary. The court may continue the order authorizing involuntary medication for up to another six months, or vacate the order, or make any other appropriate order.

(B) Within 60 days before the expiration of the one-year involuntary medication order, the district attorney, county counsel, or representative of any facility where a defendant found incompetent to stand trial is committed may petition the committing court for a renewal, subject to the same conditions and requirements as in subparagraph (A). The petition shall include the basis for involuntary medication set forth in clause (i) of subparagraph (B) of paragraph (2). Notice of the petition shall be provided to the defendant, the defendant's attorney, and the district attorney. The court shall hear and determine whether the defendant continues to meet the criteria set forth in clause (i) of subparagraph (B) of paragraph (2). The hearing on any petition to renew an order for involuntary medication shall be conducted prior to the expiration of the current order.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence and whether the administration of antipsychotic medication remains necessary. If the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, if the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence and whether the administration of

antipsychotic medication remains necessary. If the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the community program director or a designee.

(2) If the court has issued an order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant, the reports made pursuant to paragraph (1) concerning the defendant's progress toward regaining competency shall also consider the issue of involuntary medication. Each report shall include, but is not limited to, all the following:

(A) Whether or not the defendant has the capacity to make decisions concerning antipsychotic medication.

(B) If the defendant lacks capacity to make decisions concerning antipsychotic medication, whether the defendant risks serious harm to his or her physical or mental health if not treated with antipsychotic medication.

(C) Whether or not the defendant presents a danger to others if he or she is not treated with antipsychotic medication.

(D) Whether the defendant has a mental illness for which medications are the only effective treatment.

(E) Whether there are any side effects from the medication currently being experienced by the defendant that would interfere with the defendant's ability to collaborate with counsel.

(F) Whether there are any effective alternatives to medication.

(G) How quickly the medication is likely to bring the defendant to competency.

(H) Whether the treatment plan includes methods other than medication to restore the defendant to competency.

(I) A statement, if applicable, that no medication is likely to restore the defendant to competency.

(3) After reviewing the reports, the court shall determine whether or not grounds for the order authorizing involuntary administration of antipsychotic medication still exist and shall do one of the following:

(A) If the original grounds for involuntary medication still exist, the order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant shall remain in effect.

(B) If the original grounds for involuntary medication no longer exist, and there is no other basis for involuntary administration of antipsychotic medication, the order for the involuntary administration of antipsychotic medication shall be vacated.

(C) If the original grounds for involuntary medication no longer exist, and the report states that there is another basis for involuntary administration of antipsychotic medication, the court shall set a hearing within 21 days to determine whether the order for the involuntary administration of antipsychotic medication shall be vacated or whether a new order for the involuntary administration of antipsychotic medication shall be issued. The hearing shall proceed as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(4) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(5) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(6) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination. If the court determines that the defendant shall continue to be treated in the state hospital or on an outpatient basis, the court shall determine issues concerning administration of antipsychotic medication, as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, or the maximum term of imprisonment provided by law for a violation of probation or mandatory supervision, whichever is shorter, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (4) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are pending, and the defendant's counsel of record. The court shall notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which the criminal charges or revocation proceedings are pending.

(4) If the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided

by the committing court to the prosecutor and to the defense counsel.

(d) With the exception of proceedings alleging a violation of mandatory supervision, the criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee. In a proceeding alleging a violation of mandatory supervision, if the person is not placed under a conservatorship as described in paragraph (2) of subdivision (c), or if a conservatorship is terminated, the court shall reinstate mandatory supervision and may modify the terms and conditions of supervision to include appropriate mental health treatment or refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant.

(e) If the criminal action against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code).

(f) As used in this chapter, “community program director” means the person, agency, or entity designated by the State Department of State Hospitals pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, “secure treatment facility” shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) Nothing in this section shall preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing a treatment facility or outpatient program to involuntarily administer antipsychotic medication to a person being treated as incompetent to stand trial.

SEC. 7.2. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the

offense charged or hearing on the alleged violation shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial, the hearing on the alleged violation, or the judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, or to any other available public or private treatment facility, including a local county jail treatment facility or the community-based residential treatment system established pursuant to Article 1 (commencing with Section 5670) of Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code if the facility has a secured perimeter or a locked and controlled treatment facility, approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital, as directed by the State Department of State Hospitals, or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon

clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court shall serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed, and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be committed to the State Department of State Hospitals or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to

whether the defendant should be required to undergo outpatient treatment, or be committed to the State Department of State Hospitals or to any other treatment facility. A person shall not be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee. The community program director or designee shall evaluate the appropriate placement for the defendant between the State Department of State Hospitals, a local county jail treatment facility, or the community-based residential treatment system based upon guidelines provided by the State Department of State Hospitals. If a local county jail treatment facility is selected, the State Department of State Hospitals shall provide treatment at the county jail treatment facility and reimburse the county jail treatment facility for the reasonable costs of the bed during the treatment. If the community-based residential treatment system is selected, the State Department of State Hospitals shall provide reimbursement to the community-based residential treatment system for the cost of treatment as negotiated with the State Department of State Hospitals. The six-month limitation in Section 1369.1 shall not apply to individuals deemed incompetent to stand trial who are being treated to restore competency within a county jail treatment facility pursuant to this section.

(B) The court shall hear and determine whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication, and shall proceed as follows:

(i) The court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone

establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(ii) If the court finds any of the conditions described in clause (i) to be true, the court shall issue an order authorizing the treatment facility to involuntarily administer antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist. The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (i) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (i) and does not meet the criteria under subclause (II) of clause (i).

(iii) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in

subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(iv) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication, and if the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(v) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication and if the defendant, with advice from his or her counsel, does not consent, the court order for commitment shall indicate that, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(vi) Any report made pursuant to paragraph (1) of subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (iv) of subparagraph (B), but subsequently

withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (v) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication based on the conditions described in subclause (I) or (II) of clause (i) of subparagraph (B), the treating psychiatrist shall certify whether the lack of capacity and any applicable conditions described above exist. That certification shall contain an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate.

(D) (i) If the treating psychiatrist certifies that antipsychotic medication has become medically necessary and appropriate pursuant to subparagraph (C), antipsychotic medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of the certification, the defendant is provided a medication review hearing before an administrative law judge to be conducted at the facility where the defendant is receiving treatment. The treating psychiatrist shall present the case for the certification for involuntary treatment and the defendant shall be represented by an attorney or a patients' rights advocate. The attorney or patients' rights advocate shall be appointed to meet with the defendant no later than one day prior to the medication review hearing to review the defendant's rights at the medication review hearing, discuss the process, answer questions or concerns regarding involuntary medication or the hearing, assist the defendant in preparing for the hearing and advocating for his or her interests at the hearing, review the panel's final determination following the hearing, advise the defendant of his or her right to judicial review of the panel's decision, and provide the defendant with referral information for legal advice on the subject. The defendant shall also have the following rights with respect to the medication review hearing:

(I) To be given timely access to the defendant's records.

(II) To be present at the hearing, unless the defendant waives that right.

(III) To present evidence at the hearing.

(IV) To question persons presenting evidence supporting involuntary medication.

(V) To make reasonable requests for attendance of witnesses on the defendant's behalf.

(VI) To a hearing conducted in an impartial and informal manner.

(ii) If the administrative law judge determines that the defendant either meets the criteria specified in subclause (I) of clause (i) of subparagraph (B), or meets the criteria specified in subclause (II) of clause (i) of subparagraph (B), then antipsychotic medication may continue to be administered to the defendant for the 21-day certification period. Concurrently with the treating psychiatrist's certification, the treating psychiatrist shall file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period. For purposes of this subparagraph, the treating psychiatrist shall not be required to pay or deposit any fee for the filing of the petition or other document or paper related to the petition.

(iii) If the administrative law judge disagrees with the certification, medication may not be administered involuntarily until the court determines that antipsychotic medication should be administered pursuant to this section.

(iv) The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant, and shall hold a hearing, no later than 18 days from the date of the certification, to determine whether antipsychotic medication should be ordered beyond the certification period.

(v) If, as a result of the hearing, the court determines that antipsychotic medication should be administered beyond the certification period, the court shall issue an order authorizing the administration of that medication.

(vi) The court shall render its decision on the petition and issue its order no later than three calendar days after the hearing and, in any event, no later than the expiration of the 21-day certification period.

(3) When the court orders that the defendant be committed to the State Department of State Hospitals or other public or private treatment facility, the court shall provide copies of the following documents prior to the admission of the defendant to the State Department of State Hospitals or other treatment facility where the defendant is to be committed:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(I) Any medical records.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall commit the patient to the State Department of State Hospitals.

(6) (A) If the defendant is committed or transferred to the State Department of State Hospitals pursuant to this section, the court

may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to the State Department of State Hospitals or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). If either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to the State Department of State Hospitals or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(7) An order by the court authorizing involuntary medication of the defendant shall be valid for no more than one year. The court shall review the order six months after the order was made to determine if the grounds for the authorization remain. In the

review, the court shall consider the reports of the treating psychiatrist or psychiatrists and the defendant's patients' rights advocate or attorney. The court may require testimony from the treating psychiatrist or psychiatrists and the patients' rights advocate or attorney, if necessary. The court may continue the order authorizing involuntary medication for up to another six months, or vacate the order, or make any other appropriate order.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence. If the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, if the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence. If the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court.

(A) If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c) no later than 10 days following receipt of the report.

The court shall transmit a copy of its order to the community program director or a designee.

(B) If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the medical director of the state hospital or other treatment facility to which the defendant is confined shall do both of the following:

(i) Promptly notify and provide a copy of the report to the defense counsel and the district attorney.

(ii) Provide a separate notification, in compliance with applicable privacy laws, to the committing county's sheriff that transportation will be needed for the patient.

(2) If the court has issued an order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant, the reports made at six-month intervals concerning the defendant's progress toward regaining competency shall also consider the issue of involuntary medication. Each report shall include, but is not limited to, all the following:

(A) Whether or not the defendant has the capacity to make decisions concerning antipsychotic medication.

(B) If the defendant lacks capacity to make decisions concerning antipsychotic medication, whether the defendant risks serious harm to his or her physical or mental health if not treated with antipsychotic medication.

(C) Whether or not the defendant presents a danger to others if he or she is not treated with antipsychotic medication.

(D) Whether the defendant has a mental illness for which medications are the only effective treatment.

(E) Whether there are any side effects from the medication currently being experienced by the defendant that would interfere with the defendant's ability to collaborate with counsel.

(F) Whether there are any effective alternatives to medication.

(G) How quickly the medication is likely to bring the defendant to competency.

(H) Whether the treatment plan includes methods other than medication to restore the defendant to competency.

(I) A statement, if applicable, that no medication is likely to restore the defendant to competency.

(3) After reviewing the reports, the court shall determine whether or not grounds for the order authorizing involuntary administration

of antipsychotic medication still exist and shall do one of the following:

(A) If the original grounds for involuntary medication still exist, the order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant shall remain in effect.

(B) If the original grounds for involuntary medication no longer exist, and there is no other basis for involuntary administration of antipsychotic medication, the order for the involuntary administration of antipsychotic medication shall be vacated.

(C) If the original grounds for involuntary medication no longer exist, and the report states that there is another basis for involuntary administration of antipsychotic medication, the court shall set a hearing within 21 days to determine whether the order for the involuntary administration of antipsychotic medication shall be vacated or whether a new order for the involuntary administration of antipsychotic medication shall be issued. The hearing shall proceed as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(4) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(5) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(6) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination. If the court determines that the defendant shall continue to be treated in the state hospital or on an outpatient basis, the court shall determine issues concerning administration of antipsychotic medication, as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged

in the information, indictment, or misdemeanor complaint, or the maximum term of imprisonment provided by law for a violation of probation or mandatory supervision, whichever is shorter, but no later than 90 days prior to the expiration of the defendant's term of commitment, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (4) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are pending, and the defendant's counsel of record. The court shall notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which the criminal charges or revocation proceedings are pending.

(4) If the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) With the exception of proceedings alleging a violation of mandatory supervision, the criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee. In a proceeding alleging a violation of mandatory supervision, if the person is not placed under a conservatorship as described in paragraph (2) of subdivision (c), or if a conservatorship is terminated, the court shall reinstate mandatory supervision and may modify the terms and conditions of supervision to include appropriate mental health treatment or refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant.

(e) If the criminal action against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code).

(f) As used in this chapter, “community program director” means the person, agency, or entity designated by the State Department of State Hospitals pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, “secure treatment facility” shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) Nothing in this section shall preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing a treatment facility or outpatient program to involuntarily administer antipsychotic medication to a person being treated as incompetent to stand trial.

SEC. 7.3. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged or hearing on the alleged violation shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial, the hearing on the alleged violation, or the judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, or to any other available public or private treatment facility, including a local county jail treatment facility or the community-based residential treatment system established pursuant to Article 1 (commencing with Section 5670) of Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code if the facility has a secured perimeter or a locked and controlled treatment facility, approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital, as directed by the State Department of State Hospitals, or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the

court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, “violent felony” means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court shall serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed, and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be committed to the State Department of State Hospitals or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or be committed to the State Department of State

Hospitals or to any other treatment facility. A person shall not be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee. The community program director or designee shall evaluate the appropriate placement for the defendant between the State Department of State Hospitals, a local county jail treatment facility, or the community-based residential treatment system based upon guidelines provided by the State Department of State Hospitals. If a local county jail treatment facility is selected, the State Department of State Hospitals shall provide treatment at the county jail treatment facility and reimburse the county jail treatment facility for the reasonable costs of the bed during the treatment. If the community-based residential treatment system is selected, the State Department of State Hospitals shall provide reimbursement to the community-based residential treatment system for the cost of treatment as negotiated with the State Department of State Hospitals. The six-month limitation in Section 1369.1 shall not apply to individuals deemed incompetent to stand trial who are being treated to restore competency within a county jail treatment facility pursuant to this section.

(B) The court shall hear and determine whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication. The court shall consider opinions in the reports prepared pursuant to subdivision (a) of Section 1369, as applicable to the issue of whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication, and shall proceed as follows:

(i) The court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or

her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(ii) If the court finds any of the conditions described in clause (i) to be true, the court shall issue an order authorizing involuntary administration of antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist at any facility housing the defendant for purposes of this chapter. The order shall be valid for no more than one year, pursuant to subparagraph (A) of paragraph (7). The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (i) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (i) and does not meet the criteria under subclause (II) of clause (i).

(iii) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(iv) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication, and if the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(v) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication and if the defendant, with advice from his or her counsel, does not consent, the court order for commitment shall indicate that, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(vi) Any report made pursuant to paragraph (1) of subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to

contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (iv) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (v) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication based on the conditions described in subclause (I) or (II) of clause (i) of subparagraph (B), the treating psychiatrist shall certify whether the lack of capacity and any applicable conditions described above exist. That certification shall contain an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate.

(D) (i) If the treating psychiatrist certifies that antipsychotic medication has become medically necessary and appropriate pursuant to subparagraph (C), antipsychotic medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of the certification, the defendant is provided a medication review hearing before an administrative law judge to be conducted at the facility where the defendant is receiving treatment. The treating psychiatrist shall present the case for the certification for involuntary treatment and the defendant shall be represented by an attorney or a patients' rights advocate. The attorney or patients' rights advocate shall be appointed to meet with the defendant no later than one day prior to the medication review hearing to review the defendant's rights at the medication review hearing, discuss the process, answer questions or concerns regarding involuntary medication or the hearing, assist the defendant in preparing for the hearing and advocating for his or her interests at the hearing, review the panel's final determination following the hearing, advise the defendant of his or her right to judicial review of the panel's decision, and provide the defendant with referral information for legal advice on the subject. The

defendant shall also have the following rights with respect to the medication review hearing:

- (I) To be given timely access to the defendant's records.
 - (II) To be present at the hearing, unless the defendant waives that right.
 - (III) To present evidence at the hearing.
 - (IV) To question persons presenting evidence supporting involuntary medication.
 - (V) To make reasonable requests for attendance of witnesses on the defendant's behalf.
 - (VI) To a hearing conducted in an impartial and informal manner.
- (ii) If the administrative law judge determines that the defendant either meets the criteria specified in subclause (I) of clause (i) of subparagraph (B), or meets the criteria specified in subclause (II) of clause (i) of subparagraph (B), then antipsychotic medication may continue to be administered to the defendant for the 21-day certification period. Concurrently with the treating psychiatrist's certification, the treating psychiatrist shall file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period. For purposes of this subparagraph, the treating psychiatrist shall not be required to pay or deposit any fee for the filing of the petition or other document or paper related to the petition.
- (iii) If the administrative law judge disagrees with the certification, medication may not be administered involuntarily until the court determines that antipsychotic medication should be administered pursuant to this section.
- (iv) The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant, and shall hold a hearing, no later than 18 days from the date of the certification, to determine whether antipsychotic medication should be ordered beyond the certification period.
- (v) If, as a result of the hearing, the court determines that antipsychotic medication should be administered beyond the certification period, the court shall issue an order authorizing the administration of that medication.
- (vi) The court shall render its decision on the petition and issue its order no later than three calendar days after the hearing and, in

any event, no later than the expiration of the 21-day certification period.

(vii) If the administrative law judge upholds the certification pursuant to clause (ii), the court may, for a period not to exceed 14 days, extend the certification and continue the hearing pursuant to stipulation between the parties or upon a finding of good cause. In determining good cause, the court may review the petition filed with the court, the administrative law judge's order, and any additional testimony needed by the court to determine if it is appropriate to continue medication beyond the 21-day certification and for a period of up to 14 days.

(viii) The district attorney, county counsel, or representative of any facility where a defendant found incompetent to stand trial is committed may petition the court for an order to administer involuntary medication pursuant to the criteria set forth in subclauses (II) and (III) of clause (i) of subparagraph (B). The order is reviewable as provided in paragraph (7).

(3) When the court orders that the defendant be committed to the State Department of State Hospitals or other public or private treatment facility, the court shall provide copies of the following documents prior to the admission of the defendant to the State Department of State Hospitals or other treatment facility where the defendant is to be committed:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense

specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(I) Any medical records.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall commit the patient to the State Department of State Hospitals.

(6) (A) If the defendant is committed or transferred to the State Department of State Hospitals pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to the State Department of State Hospitals or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). If either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to the State Department of State Hospitals or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(7) (A) An order by the court authorizing involuntary medication of the defendant shall be valid for no more than one year. The court shall review the order at the time of the review of the initial report and the six-month progress reports pursuant to paragraph (1) of subdivision (b) to determine if the grounds for the authorization remain. In the review, the court shall consider the reports of the treating psychiatrist or psychiatrists and the defendant's patients' rights advocate or attorney. The court may require testimony from the treating psychiatrist or psychiatrists and the patients' rights advocate or attorney, if necessary. The court may continue the order authorizing involuntary medication for up to another six months, or vacate the order, or make any other appropriate order.

(B) Within 60 days before the expiration of the one-year involuntary medication order, the district attorney, county counsel, or representative of any facility where a defendant found incompetent to stand trial is committed may petition the committing court for a renewal, subject to the same conditions and requirements as in subparagraph (A). The petition shall include the basis for involuntary medication set forth in clause (i) of subparagraph (B) of paragraph (2). Notice of the petition shall be provided to the defendant, the defendant's attorney, and the district attorney. The court shall hear and determine whether the defendant continues to meet the criteria set forth in clause (i) of subparagraph (B) of paragraph (2). The hearing on any petition to renew an order

for involuntary medication shall be conducted prior to the expiration of the current order.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence and whether the administration of antipsychotic medication remains necessary. If the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, if the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence and whether the administration of antipsychotic medication remains necessary. If the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court.

(A) If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c) no later than 10 days following receipt of the report. The court shall transmit a copy of its order to the community program director or a designee.

(B) If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the medical director of the state hospital or other treatment facility to which the defendant is confined shall do both of the following:

(i) Promptly notify and provide a copy of the report to the defense counsel and the district attorney.

(ii) Provide a separate notification, in compliance with applicable privacy laws, to the committing county's sheriff that transportation will be needed for the patient.

(2) If the court has issued an order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant, the reports made pursuant to paragraph (1) concerning the defendant's progress toward regaining competency shall also consider the issue of involuntary medication. Each report shall include, but is not limited to, all the following:

(A) Whether or not the defendant has the capacity to make decisions concerning antipsychotic medication.

(B) If the defendant lacks capacity to make decisions concerning antipsychotic medication, whether the defendant risks serious harm to his or her physical or mental health if not treated with antipsychotic medication.

(C) Whether or not the defendant presents a danger to others if he or she is not treated with antipsychotic medication.

(D) Whether the defendant has a mental illness for which medications are the only effective treatment.

(E) Whether there are any side effects from the medication currently being experienced by the defendant that would interfere with the defendant's ability to collaborate with counsel.

(F) Whether there are any effective alternatives to medication.

(G) How quickly the medication is likely to bring the defendant to competency.

(H) Whether the treatment plan includes methods other than medication to restore the defendant to competency.

(I) A statement, if applicable, that no medication is likely to restore the defendant to competency.

(3) After reviewing the reports, the court shall determine whether or not grounds for the order authorizing involuntary administration of antipsychotic medication still exist and shall do one of the following:

(A) If the original grounds for involuntary medication still exist, the order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant shall remain in effect.

(B) If the original grounds for involuntary medication no longer exist, and there is no other basis for involuntary administration of antipsychotic medication, the order for the involuntary administration of antipsychotic medication shall be vacated.

(C) If the original grounds for involuntary medication no longer exist, and the report states that there is another basis for involuntary administration of antipsychotic medication, the court shall set a hearing within 21 days to determine whether the order for the involuntary administration of antipsychotic medication shall be vacated or whether a new order for the involuntary administration of antipsychotic medication shall be issued. The hearing shall proceed as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(4) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(5) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(6) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination. If the court determines that the defendant shall continue to be treated in the state hospital or on an outpatient basis, the court shall determine issues concerning administration of antipsychotic medication, as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, or the maximum term of imprisonment provided by law for a violation

of probation or mandatory supervision, whichever is shorter, but no later than 90 days prior to the expiration of the defendant's term of commitment, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (4) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are pending, and the defendant's counsel of record. The court shall notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which the criminal charges or revocation proceedings are pending.

(4) If the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) With the exception of proceedings alleging a violation of mandatory supervision, the criminal action remains subject to

dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee. In a proceeding alleging a violation of mandatory supervision, if the person is not placed under a conservatorship as described in paragraph (2) of subdivision (c), or if a conservatorship is terminated, the court shall reinstate mandatory supervision and may modify the terms and conditions of supervision to include appropriate mental health treatment or refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant.

(e) If the criminal action against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code).

(f) As used in this chapter, “community program director” means the person, agency, or entity designated by the State Department of State Hospitals pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, “secure treatment facility” shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) Nothing in this section shall preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing a treatment facility or outpatient program to involuntarily administer antipsychotic medication to a person being treated as incompetent to stand trial.

SEC. 8. Section 1370.01 of the Penal Code is amended to read:

1370.01. (a) (1) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced. If the defendant is found mentally incompetent, the trial, judgment, or hearing on the alleged violation shall be suspended until the person becomes mentally competent, and the court shall order that (A) in the

meantime, the defendant be delivered by the sheriff to an available public or private treatment facility approved by the county mental health director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in this section, and (B) upon the filing of a certificate of restoration to competence, the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the county mental health director or his or her designee.

(2) Prior to making the order directing that the defendant be confined in a treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the county mental health director or his or her designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or committed to a treatment facility. No person shall be admitted to a treatment facility or placed on outpatient status under this section without having been evaluated by the county mental health director or his or her designee. No person shall be admitted to a state hospital under this section unless the county mental health director finds that there is no less restrictive appropriate placement available and the county mental health director has a contract with the State Department of State Hospitals for these placements.

(B) The court shall hear and determine whether the defendant, with advice of his or her counsel, consents to the administration of antipsychotic medication, and shall proceed as follows:

(i) If the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with this subdivision regarding whether antipsychotic medication shall be administered involuntarily.

(ii) If the defendant does not consent to the administration of medication, the court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property; involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial; the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner; less intrusive treatments are unlikely to have substantially the same results; and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(iii) If the court finds any of the conditions described in clause (ii) to be true, the court shall issue an order authorizing the

treatment facility to involuntarily administer antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist. The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (ii) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (ii) and does not meet the criteria under subclause (II) of clause (ii).

(iv) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(v) Any report made pursuant to subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (i) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (ii) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication as specified in subclause (I) of clause (ii) of subparagraph (B), or that the

defendant is a danger to others as specified in subclause (II) of clause (ii) of subparagraph (B), the committing court shall be notified of this, including an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate. The court shall provide copies of the report to the prosecuting attorney and to the attorney representing the defendant and shall set a hearing to determine whether involuntary antipsychotic medication should be ordered in the manner described in subparagraph (B).

(3) When the court, after considering the placement recommendation of the county mental health director required in paragraph (2), orders that the defendant be confined in a public or private treatment facility, the court shall provide copies of the following documents which shall be taken with the defendant to the treatment facility where the defendant is to be confined:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The county mental health director's placement recommendation report.

(4) A person subject to commitment under this section may be placed on outpatient status under the supervision of the county mental health director or his or her designee by order of the court in accordance with the procedures contained in Title 15 (commencing with Section 1600) except that where the term "community program director" appears the term "county mental health director" shall be substituted.

(5) If the defendant is committed or transferred to a public or private treatment facility approved by the county mental health director, the court may, upon receiving the written recommendation

of the county mental health director, transfer the defendant to another public or private treatment facility approved by the county mental health director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code. Where either the defendant or the prosecutor chooses to contest the order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the county mental health director or his or her designee.

(b) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the treatment facility to which the defendant is confined shall make a written report to the court and the county mental health director or his or her designee, concerning the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the county mental health director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the county mental health director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, where the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the county mental health director or a designee regarding the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the county

mental health director on the defendant's progress toward recovery, and the county mental health director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the county mental health director or his or her designee.

(c) (1) If, at the end of one year from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the misdemeanor complaint, whichever is shorter, the defendant has not recovered mental competence, the defendant shall be returned to the committing court. The court shall notify the county mental health director or his or her designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (A) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the county mental health director or his or her designee and shall notify the county mental health director or his or her designee of the outcome of the proceedings.

(d) The criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the county mental health director or his or her designee.

(e) If the criminal charge against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any

proceedings which may be appropriate under Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

SEC. 9. Section 1370.02 is added to the Penal Code, to read:

1370.02. (a) If the defendant is found mentally competent during a postrelease community supervision or parole revocation hearing, the revocation proceedings shall resume. The formal hearing on the revocation shall occur within a reasonable time after resumption of the proceedings, but in no event may the defendant be detained in custody for over 180 days from the date of arrest.

(b) If the defendant is found mentally incompetent, the court shall dismiss the pending revocation matter and return the defendant to supervision. If the revocation matter is dismissed pursuant to this subdivision, the court may, using the least restrictive option to meet the mental health needs of the defendant, also do any of the following:

(1) Modify the terms and conditions of supervision to include appropriate mental health treatment.

(2) Refer the matter to any local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant.

(3) Refer the matter to the public guardian of the county of commitment to initiate conservatorship proceedings pursuant to Sections 5352 and 5352.5 of the Welfare and Institutions Code. The public guardian shall investigate all available alternatives to conservatorship pursuant to Section 5354 of the Welfare and Institutions Code. The court shall order the matter to the public guardian pursuant to this paragraph only if there are no other reasonable alternatives to the establishment of a conservatorship to meet the mental health needs of the defendant.

(c) (1) Notwithstanding any other law, if a person subject to parole pursuant to Section 3000.1 or paragraph (4) of subdivision (b) of Section 3000 is found mentally incompetent, the court shall order the parolee to undergo treatment pursuant to Section 1370 for restoring the person to competency, except that if the parolee is not restored to competency within the maximum period of confinement and the court dismisses the revocation, the court shall return the parolee to parole supervision.

(2) If the parolee is returned to parole supervision, the court may, using the least restrictive option to meet the mental health needs of the parolee, do any of the following:

(A) Modify the terms and conditions of parole to include appropriate mental health treatment.

(B) Refer the matter to any local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the parolee.

(C) Refer the matter to the public guardian of the county of commitment to initiate conservatorship proceedings pursuant to Sections 5352 and 5352.5 of the Welfare and Institutions Code. The public guardian shall investigate all available alternatives to conservatorship pursuant to Section 5354 of the Welfare and Institutions Code. The court shall order the matter to the public guardian pursuant to this subparagraph only if there are no other reasonable alternatives to the establishment of a conservatorship to meet the mental health needs of the parolee.

(d) If a conservatorship is established for a defendant or parolee pursuant to subdivision (b) or (c), the county or the Department of Corrections and Rehabilitation shall not compassionately release the defendant or parolee or otherwise cause the termination of his or her supervision or parole based on the establishment of that conservatorship.

SEC. 10. Section 1370.1 of the Penal Code is amended to read:

1370.1. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged or hearing on the alleged violation shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent and is developmentally disabled, the trial or judgment shall be suspended until the defendant becomes mentally competent.

(i) Except as provided in clause (ii) or (iii), the court shall consider a recommendation for placement, which recommendation shall be made to the court by the director of a regional center or designee. In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff or other person designated by the court to a state hospital or developmental center for the care and treatment of the developmentally disabled or any other available residential facility approved by the director of a regional center for the developmentally disabled established under

Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code as will promote the defendant's speedy attainment of mental competence, or be placed on outpatient status pursuant to the provisions of Section 1370.4 and Title 15 (commencing with Section 1600).

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the developmentally disabled unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the developmentally disabled unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon becoming competent, the court shall order that the defendant be returned to the committing court pursuant to the

procedures set forth in paragraph (2) of subdivision (a) of Section 1372 or by another person designated by the court. The court shall further determine conditions under which the person may be absent from the placement for medical treatment, social visits, and other similar activities. Required levels of supervision and security for these activities shall be specified.

(D) The court shall transmit a copy of its order to the regional center director or designee and to the Director of Developmental Services.

(E) A defendant charged with a violent felony may not be placed in a facility or delivered to a state hospital, developmental center, or residential facility pursuant to this subdivision unless the facility, state hospital, developmental center, or residential facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(F) For purposes of this paragraph, “violent felony” means an offense specified in subdivision (c) of Section 667.5.

(G) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1370.4 or 1600, only if the court finds that the placement will not pose a danger to the health or safety of others.

(H) As used in this section, “developmental disability” means a disability that originates before an individual attains 18 years of age, continues, or can be expected to continue, indefinitely and constitutes a substantial handicap for the individual, and shall not include other handicapping conditions that are solely physical in nature. As defined by the Director of Developmental Services, in consultation with the Superintendent of Public Instruction, this term shall include intellectual disability, cerebral palsy, epilepsy, and autism. This term shall also include handicapping conditions found to be closely related to intellectual disability or to require treatment similar to that required for individuals with an intellectual disability, but shall not include other handicapping conditions that are solely physical in nature.

(2) Prior to making the order directing that the defendant be confined in a state hospital, developmental center, or other residential facility, or be placed on outpatient status, the court shall order the regional center director or designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should

be committed to a state hospital or developmental center or to any other available residential facility approved by the regional center director. A person shall not be admitted to a state hospital, developmental center, or other residential facility or accepted for outpatient status under Section 1370.4 without having been evaluated by the regional center director or designee.

(3) When the court orders that the defendant be confined in a state hospital or other secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1), the court shall provide copies of the following documents which shall be taken with the defendant to the state hospital or other secure treatment facility where the defendant is to be confined:

(A) State summary criminal history information.

(B) Any arrest reports prepared by the police department or other law enforcement agency.

(C) Records of a finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or a pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a residential facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of a finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) (A) If the defendant is committed or transferred to a state hospital or developmental center pursuant to this section, the court may, upon receiving the written recommendation of the executive director of the state hospital or developmental center and the regional center director that the defendant be transferred to a residential facility approved by the regional center director, order the defendant transferred to that facility. If the defendant is committed or transferred to a residential facility approved by the regional center director, the court may, upon receiving the written recommendation of the regional center director, transfer the

defendant to a state hospital or developmental center or to another residential facility approved by the regional center director.

In the event of dismissal of the criminal action or revocation proceedings before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code.

The defendant or prosecuting attorney may contest either kind of order of transfer by filing a petition with the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the regional center director or designee.

(B) If the defendant is committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to another facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to the new facility. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(b) (1) Within 90 days of admission of a person committed pursuant to subdivision (a), the executive director or designee of the state hospital, developmental center, or other facility to which the defendant is committed, or the outpatient supervisor where the defendant is placed on outpatient status, shall make a written report to the committing court and the regional center director or a designee concerning the defendant's progress toward becoming mentally competent. If the defendant has not become mentally competent, but the report discloses a substantial likelihood the defendant will become mentally competent within the next 90 days, the court may order that the defendant shall remain in the

state hospital, developmental center, or other facility or on outpatient status for that period of time. Within 150 days of an admission made pursuant to subdivision (a) or if the defendant becomes mentally competent, the executive director or designee of the hospital or developmental center or person in charge of the facility or the outpatient supervisor shall report to the court and the regional center director or his or her designee regarding the defendant's progress toward becoming mentally competent. The court shall provide to the prosecutor and defense counsel copies of all reports under this section. If the report indicates that there is no substantial likelihood that the defendant has become mentally competent, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the regional center director or designee and to the executive director of the developmental center.

(2) A defendant who has been committed or has been on outpatient status for 18 months, and is still hospitalized or on outpatient status, shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the regional center director or designee and the executive director of the developmental center.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. A copy of this order shall be sent to the regional center director or designee and to the executive director of the developmental center.

(4) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination.

(c) (1) (A) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, or the maximum term of imprisonment provided by law for a violation of probation or mandatory supervision, whichever is shorter, a defendant who has not become mentally competent shall be returned to the committing court.

(B) The court shall notify the regional center director or designee and the executive director of the developmental center of that return and of any resulting court orders.

(2) (A) Except as provided in subparagraph (B), in the event of dismissal of the criminal charges before the defendant becomes mentally competent, the defendant shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code), or to commitment and detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code. If it is found that the person is not subject to commitment or detention pursuant to the applicable provision of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code, the individual shall not be subject to further confinement pursuant to this article and the criminal action remains subject to dismissal pursuant to Section 1385. The court shall notify the regional center director and the executive director of the developmental center of any dismissal.

(B) In revocation proceedings alleging a violation of mandatory supervision in which the defendant remains incompetent upon return to court under subparagraph (A), the defendant shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code), or to commitment and detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code. If it is found that the person is not subject to commitment or detention pursuant to the applicable provision of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code, the court shall reinstate mandatory supervision and modify the terms and conditions of supervision to include appropriate mental health treatment or refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant. Actions alleging a violation of mandatory supervision shall not be subject to dismissal under Section 1385.

(d) Except as provided in subparagraph (B) of paragraph (2) of subdivision (c), the criminal action remains subject to dismissal pursuant to Section 1385. If at any time prior to the maximum period of time allowed for proceedings under this article, the regional center director concludes that the behavior of the defendant related to the defendant's criminal offense has been eliminated during time spent in court-ordered programs, the court may, upon recommendation of the regional center director, dismiss the criminal charges. The court shall transmit a copy of any order of dismissal to the regional center director and to the executive director of the developmental center.

(e) For the purpose of this section, "secure treatment facility" shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, a facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or a community board and care facility.

SEC. 11. Section 1370.5 of the Penal Code is amended to read:

1370.5. (a) A person committed to a state hospital or other public or private mental health facility pursuant to the provisions of Section 1370, 1370.01, 1370.02, or 1370.1, who escapes from or who escapes while being conveyed to or from a state hospital or facility, is punishable by imprisonment in a county jail not to exceed one year or in the state prison for a determinate term of one year and one day. The term of imprisonment imposed pursuant to this section shall be served consecutively to any other sentence or commitment.

(b) The medical director or person in charge of a state hospital or other public or private mental health facility to which a person has been committed pursuant to the provisions of Section 1370, 1370.01, 1370.02, or 1370.1 shall promptly notify the chief of police of the city in which the hospital or facility is located, or the sheriff of the county if the hospital or facility is located in an unincorporated area, of the escape of the person, and shall request the assistance of the chief of police or sheriff in apprehending the person, and shall within 48 hours of the escape of the person orally notify the court that made the commitment, the prosecutor in the case, and the Department of Justice of the escape.

SEC. 12. Section 1371 of the Penal Code is amended to read:

1371. The commitment of the defendant, as described in Section 1370, 1370.1, 1370.01, or 1370.02, exonerates his or her bail, or entitles a person, authorized to receive the property of the defendant, to a return of any money he or she may have deposited instead of bail, or gives, to the person or persons found by the court to have deposited any money instead of bail on behalf of the defendant, a right to the return of that money.

SEC. 13. Section 1373 of the Penal Code is amended to read:

1373. The expense of sending the defendant to the state hospital or other facility, and of bringing him or her back, are chargeable to the county in which the indictment was found, information was filed, or revocation proceeding was held; but the county may recover the expense from the estate of the defendant, if he or she has any, or from a relative, bound to provide for and maintain him or her.

SEC. 14. Section 1375.5 of the Penal Code is amended to read:

1375.5. (a) Time spent by a defendant in a hospital or other facility as a result of a commitment therein as a mentally incompetent pursuant to this chapter shall be credited on the term of imprisonment, if any, for which the defendant is sentenced in the criminal case which was suspended pursuant to Section 1370, 1370.1, or 1370.01.

(b) As used in this section, “time spent in a hospital or other facility” includes days a defendant is treated as an outpatient pursuant to Title 15 (commencing with Section 1600) of Part 2.

SEC. 15. (a) Section 7.1 of this bill incorporates amendments to Section 1370 of the Penal Code proposed by both this bill and Assembly Bill 2186. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2015, (2) each bill amends Section 1370 of the Penal Code, (3) Assembly Bill 2625 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after Assembly Bill 2186, in which case Sections 7, 7.2, and 7.3 of this bill shall not become operative.

(b) Section 7.2 of this bill incorporates amendments to Section 1370 of the Penal Code proposed by both this bill and Assembly Bill 2625. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2015, (2) each bill amends Section 1370 of the Penal Code, (3) Assembly Bill 2186 is not enacted or as enacted does not amend that section,

and (4) this bill is enacted after Assembly Bill 2625 in which case Sections 7, 7.1, and 7.3 of this bill shall not become operative.

(c) Section 7.3 of this bill incorporates amendments to Section 1370 of the Penal Code proposed by this bill, Assembly Bill 2186, and Assembly Bill 2625. It shall only become operative if (1) all three bills are enacted and become effective on or before January 1, 2015, (2) all three bills amend Section 1370 of the Penal Code, and (3) this bill is enacted after Assembly Bill 2186 and Assembly Bill 2625, in which case Sections 7, 7.1, and 7.2 of this bill shall not become operative.

SEC. 16. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Approved _____, 2014

Governor
